EXPERIENCE 100% ELECTRIC

The electric drivetrain on Citroën ë-C4 includes a 100kW motor (equivalent to 136hp) and 260Nm of torque available instantly for a 0-100km/h of just 9.7 seconds in sport mode. The 50kWh battery on ë-C4 (with a range of up to 357 km in the WLTP cycle) is guaranteed for 8 years or 160,000km for 70% of its load capacity.

Citroën ë-C4 electric adds a brake mode which amplifies deceleration without pressing on the brake pedal, all while recovering energy.

PETROL OR DIESEL ENGINES

The Citroën C4 offers incomparable driving pleasure and real road capabilities. It also owes these advantages to its efficient and high-performance engines. The petrol version can be powered by the PureTech 100 S&S 6-speed manual, PureTech 130 S&S 6-speed manual and PureTech 130 S&S 8-speed automatic engines. The diesel version can be equipped with a BlueHDi 110 S&S 6-speed manual or BlueHDi 130 S&S 8-speed automatic engine.

Discover

Book a t

8-SPEED AUTOMATIC

Citroën ë-C4 Electric and Citroën C4 offer an automatic gearbox controlled by a guilloche metal toggle switch, for complete elegance. 3 positions (R, N and D) to easily select reverse, neutral or drive. It is located beside two backlit push buttons: P to activate the Parking mode, M to activate the Manual driving mode on petrol and diesel versions, or B to activate Brake mode. Brake mode can recover more energy for the battery on the electric version using regenerative braking.

STYLE

With their elevated and energetic stance, Citroën C4 and Citroën ë-C4 Electric offer a new concept in the hatchback segment.

This new expression of style is closely aligned with the brand's new hallmarks: a modern design that also offers a wide range of customisation options thanks to 29 color combinations.

AERODYNAMIC AND ELEGANT

The Citroën C4 and Citroën ë-C4 Electric manage to harmoniously combine the fluid and refined lines of a hatchback with the generous volumes and robustness of an SUV. They also offer a unique aerodynamic profile thanks to the sloping roofline. A strong character by large diameter wheels and a raised stance, gives off a character that is ready to pounce at any moment.

A NEW DESIGN AESTHETIC

The unique identity of the Citroën C4 and Citroën ë-C4 Electric is based on the brand's new signature, which was launched in early 2020. It is expressed in particular by a modern and sleek front end with a double-stage lighting system and chevrons stretching across the entire width of the car. The rear end confirms this expression of dynamism and robustness with its lights connected by a glossy black band.

INTERIOR 3 AMBIENCES

Modernity and well-being go hand in hand on board the Citroën C4 and Citroën ë-C4 Electric. The seats, for example, feature new patterns. Satin chrome or glossy black accents are also combined with warm, soft materials. To make sure that everyone can drive in the interior of their choice, 3 interior ambiances are offered. This includes the standard one, '**Meanwhile**' Fabric / **Black Fabric**'.

The **Urban Grey**** ambience combines the visual comfort of a quilted grey herringbone fabric with a black leather-effect textile. Topped with a strip of grey fabric featuring another herringbone pattern.

The **Alcantara** ambience offers a mix of alcantara and black leather-effect textile for a luxurious experience on board.

CITROËN C4 AND È-C4 ELECTRIC

C-SERIES SPECIAL EDITION

Designed with emblematic colours, specific materials and technological equipment for unique style and comfort, the Citroën C-Series special edition combines all the facets of the Citroën spirit. This customisation is named after the brand's 'C'. The exceptional comfort that has distinguished the brand for over one hundred years, as well as the connectivity, serene driving and undeniable character makes this model unique.

Best drive

Configure

Equipped with Advanced Comfort seats and progressive hydraulic cushion suspension, the Citroën C4 and e-C4 Electric C-Series provide unique comfort for all occupants.

This special series features a Bronze Anodised colour pack that highlights the fog lamps and front door sill protectors. A matching C-Series badge also decorates the front wings. The car is available in five colours: Polar White, Cumulus Grey, Platinum Grey, Perla Nera Black and Oblia Blue.

Inside, the Urban Grey ambience brings style to the seats with its grey herringbone fabric and black leather-effect fabric. Based on the Flair version, the Citroën C4 and e-C4 Electric C-Series both feature a wide range of features, including heated front seats, heated steering wheel and Citroën's HiFi system. The driver benefits from a full-colour head-up display while the front passenger benefits from the Citroën Smart Pad Support™, a clever retractable support system integrated into the dashboard that allows a tablet to be securely attached. The boot floor offers two positions to accommodate all your luggage.

WELL-BEING

FOR ULTIMATE COMFORT

Citroën has developed a comprehensive programme designed to provide the ultimate in comfort for both driver and passengers. The CITROËN ADVANCED COMFORT®, programme consists of innovative, technological and intelligent solutions for well-being. All user expectations are thus taken into account, this confirms Citroën's credentials in the field of automotive comfort. Four major dictate this comfort engineering: practicality, fluidity and serenity.

CITROËN ADVANCED COMFORT SUSPENSION®

The Citroën ë-C4 Electric and Citroën C4 offer exceptional on-board comfort and driving pleasure. The Citroën Advanced Comfort® Suspension provides a real magic carpet effect on light compression and rebound, and avoids any rebound effect on major road defects. A Citroën innovation for a new comfort experience.

The image shows the interior of a Citroën car, focusing on the front seats. The seats are upholstered in a dark grey fabric with a prominent horizontal ribbed pattern. A lighter grey, textured band runs across the upper backrest area. The car's interior is modern, with a sunroof visible at the top and a black armrest on the right seat. The overall lighting is soft, highlighting the texture of the fabric.

ADVANCED COMFORT SEATS

Another exclusive Citroën innovation. The Advanced Comfort seats on Citroën ë-C4 Electric and Citroën C4 provide different types of comfort: visual comfort with their immediately visible padding, instantaneous softness and support, high-density foam at the heart of the seats which prevents them from sagging over time. Finally, postural comfort through lumbar and height adjustment of the front seats. Not forgetting the wide side and central armrests at the front and rear.

A PLEASURE TO DRIVE

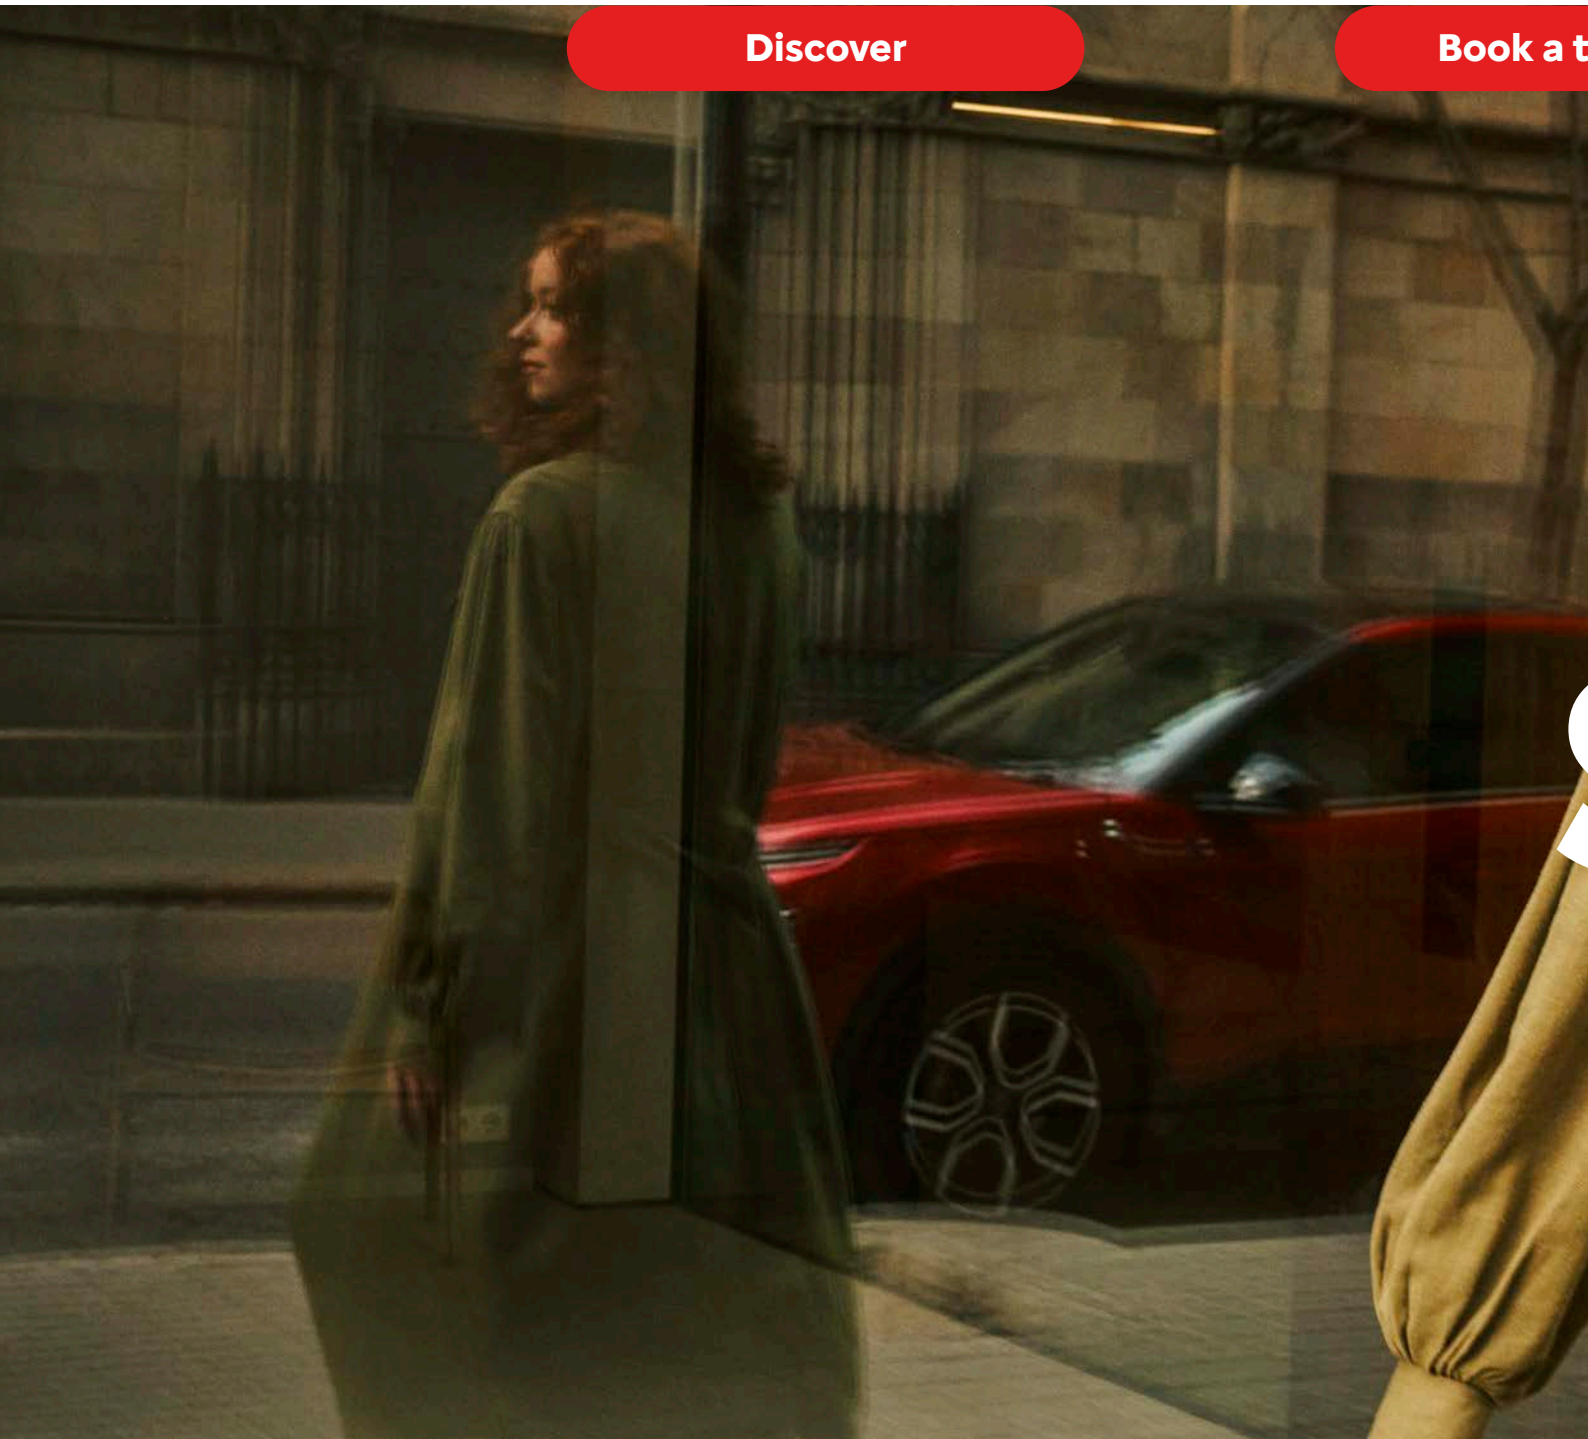

Worthy heirs to the brand's expertise, Citroën ë-C4 Electric and Citroën C4 stand out for their driving experience. Thanks to the reduction in road noise and the insulation of the engine block, the interior acoustics are enhanced.

With heated steering wheel* and dual-zone automatic climate control*, these cars provide comfort in all conditions. The electric version also offers comfort-class mobility, with no vibrations, no noise and no jerks, and immediate torque. Perfect fluidity for incomparable sensations. And thanks to the thermal preconditioning, whatever the season, you get into a vehicle at 21°C.

CONNECTED NAVIGATION

MY CITROËN DRIVE

For perfect continuity between the digital world and the car Citroën ë-C4 Electric and Citroën C4 are equipped with a 10" touchscreen with a HD screen and voice control. This is the car's nerve centre, it allows you to set the car's parameters and access the latest-generation 3D navigation system of the latest generation: My Citroën Drive. Combined with connected services such as TomTom Traffic, it provides information on real time traffic information, danger zone signs and the location and pricing of service stations and car parks.

In addition, it provides weather information and a local search for points of interest.

The system is specially enriched with information relating to the electrification of the vehicle, including the location of electric charging stations. Additionally, a representation of the range of the vehicle and the range of action according to the battery charge level, in order to better manage the range of the Citroën ë-C4 Electric.

CONNECTED TECHNOLOGY

MY CITROËN PLAY

This technology, which includes Mirror Screen (compatible with Android Auto™ and Apple CarPlay®), allows you to enjoy the applications on your smartphone by duplicating them on the car's touchscreen with complete safety. Additionally, Citroën ë-C4 Electric and Citroën C4 have 4 USB sockets allowing each to recharge your smartphone.

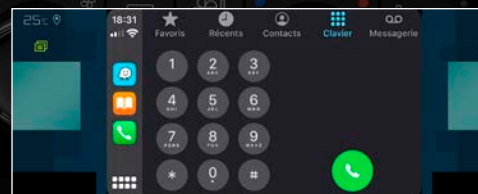

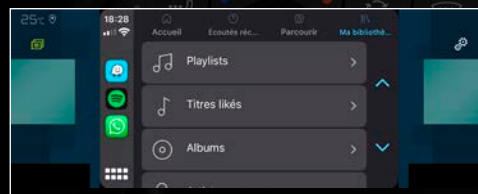

MY CITROËN ASSIST

This geolocated emergency and assistance call service is free of charge and does not require a subscription. Available 24/7, it ensures that the appropriate help is sent, either automatically or by pressing the emergency or assistance button. This also includes the remote control system for the vehicle, thanks to the My Citroën application.

DIFFERENT TYPES OF CHARGING

In the city, on the motorway or at home, there are many ways to charge the Citroën ë-C4 Electric. The possibilities are endless and you can always find a suitable solution. It's up to you to choose one according to your needs.

THREE PIN

At home, advised for emergency use, the battery recharges to 100% in 31 hours on a standard outlet.

FAST CHARGER

On a public charger with power of 100 kW, 100 km can be achieved in 10 minutes.

WALL BOX

A Wall Box can be installed at your home: it allows a 0 to 100% recharge in 7.5 hours, single-phase.

INTUITIVE INTERFACES

In order to fully master the operation of Citroën ë-C4 Electric, the driver has several intuitive interfaces, easy to read and use. The dedicated display mode on the digital handset allows the gauge or range to be viewed, and gives access to three essential pieces of information: the power indicator, the energy flow and the energy consumption. The specific pages of the 10" touchscreen, placed in the center of the dashboard, display the operating status of the system. The settings for the delayed battery recharge and the thermal preconditioning the cabin are displayed on the touchscreen. When the car's battery is being charged, the display shows the time remaining for a full charge, the range recovered expressed in kilometres, or the rate of charge of the battery recovered.

A STEP TOWARDS AUTONOMOUS DRIVING

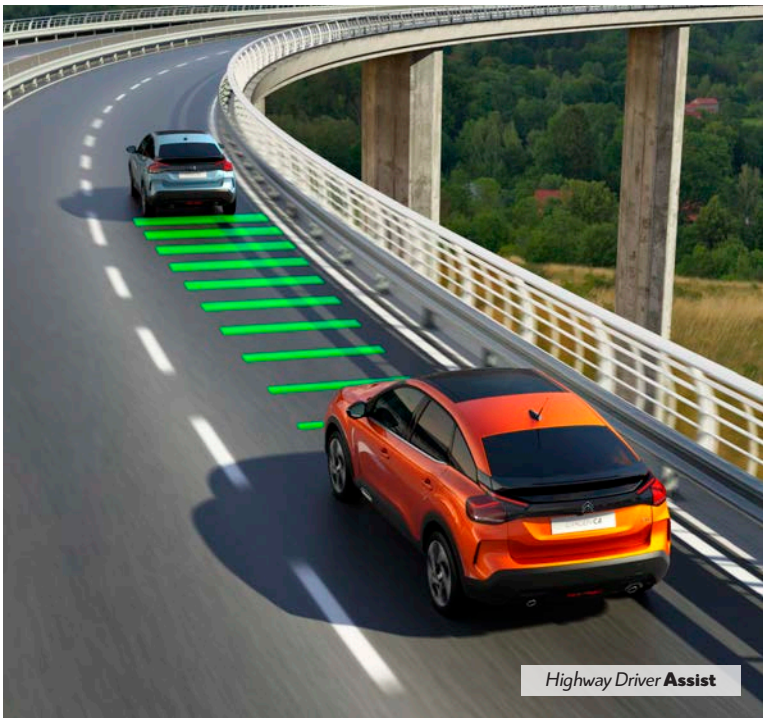

Highway Driver Assist* combines adaptive cruise control with a vehicle lane keeping system. The driver no longer needs to manage speed or trajectory in their lane.

These functions are taken care of by the car. Note that to remain active, the driver's hands must be on the steering wheel. The Head-Up Display* allows the driver to keep his or her eyes on the road while having essential driving information in their field of vision.

(1) Figures shown are for comparison purposes and should only be compared to the range values of other cars tested to the same technical standard. The range achieved in real world conditions will depend upon a number of factors; (including but not limited to) the accessories fitted (pre and post registration), variations in the weather, driving styles and vehicle loads. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to calculate the Vehicle Registration Tax (VRT) for the first registration of the vehicle. The CO₂ figures display a range to reflect the highest value for the emitting version with all available options added, through to a minimum value to represent the lowest version on standard specification.
