### Battery units

Kia high voltage lithium ion battery-units in electric vehicles (EV), hybrid electric vehicles (HEV) and plug-in hybrid electric vehicles (PHEV) are built to have a long life. These batteries are covered by the KIA warranty for a period of 7 years from initial registration or 150,000 km, whichever comes first. For low voltage batteries (48V and 12V) in mild-hybrid electric vehicles (MHEV), the Kia warranty covers a period of 2 years from initial registration regardless of mileage. For EVs and PHEVs only, Kia guarantees a 70% capacity of the battery. Capacity reduction of the battery in HEV and MHEV is not covered by the warranty. To minimize possible capacity reduction, consult the Owner's Manual.

### The Kia 7-year warranty

Max. 150,000 km vehicle warranty. Valid in all EU member states (plus Norway, Switzerland, Iceland and Gibraltar). Deviations according to the valid guarantee conditions, e.g. for paint and equipment, subject to local terms and conditions.
